Subject: Application for Software Engineer / Full Stack Developer

Dear Hiring Manager, I am writing to express my interest in opportunities at HCLTech. I am a B.Tech (Computer Science) graduate with over one year of hands-on experience in Full Stack Development through my internship, where I worked on real-world web applications using Angular, React.js, Node.js, NestJS, MongoDB, Express.js, JavaScript, and TypeScript. During my internship, I developed REST APIs, implemented authentication and authorization, integrated frontend and backend modules, resolved production issues, and collaborated with team members to deliver scalable applications. These experiences strengthened my problem-solving ability, debugging skills, and understanding of modern software development practices. I am eager to contribute to HCLTech's engineering teams and continue learning while delivering high-quality software solutions. I am a quick learner, adaptable, and available to join immediately. Thank you for your time and consideration. I look forward to the opportunity to discuss how my technical skills and enthusiasm can contribute to HCLTech. Sincerely,

Bharat Sahu
